Quantitative Aptitude

1. How many different letter arrangements can be made from the letter of the word EXTRA in such a way that the vowels are always together?

    A   48

    B   60

    C   40

    D   30

2. The radius of the incircle in the given diagram will be

    A   1.8 cm

    B   2 cm

    C   2.5 cm

    D   3.6 cm

3. If $\tan\theta + \sin\theta = m$ and $\tan\theta - \sin\theta = n$, then the value of $m^2 - n^2$ is equal to

    A $4\,mn$

    B $2\sqrt{(mn)}$

    C $4\sqrt{(mn)}$

    D $2\sqrt{(m/n)}$

4. If A and B are two mutually exclusive and exhaustive events with $P(B) = 3P(A)$, then what is the value of $P(\overline{B})$?

    A $\frac{3}{4}$

    B $\frac{1}{4}$

    C $\frac{1}{3}$

    D $\frac{2}{3}$

5. A and B entered into a partnership investing `16,000 and `12,000 respectively. After 3 months, A withdrew `5000 while B invested `5000 more. After 3 more months, C joins the business with a capital of `21,000. The share of B exceeds that of C, out of a total profit of `26,400 after one after by:

A 2400

B 3000

C 3600

D 4800

6. An aeroplane takes off 30 minutes later than the scheduled time and in order to reach its destination 1500 km away in time, it has to increase its speed by 250 km/h from its usual speed. Find its usual speed.

A 1000 km/h

B 750 km/h

C 850 km/h

D 650 km/h
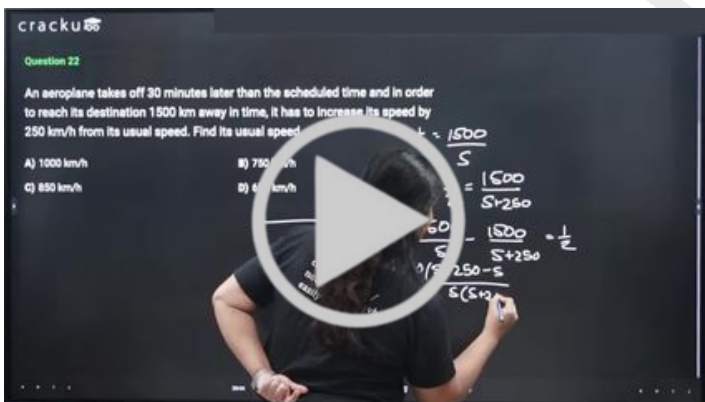

▶ VIDEO SOLUTION

7. What smallest number should be added to 4456 so that the sum is completely divisible by 6?

A 4

B 3

C 2

D 1

8. If two tangents inclined at an angle $60°$ are drawn to a circle of radius 3 cm, then length of each tangent is equal to
- **A** $\frac{3}{2}\sqrt{2}\ cm$

- **B** $6\ cm$

- **C** $3\ cm$

- **D** $3\sqrt{3}\ cm$

9. Find the value of $\log_{3^2} 5^4 \times \log_{5^2} 3^4$

- **A** 5

- **B** 3

- **C** 4

- **D** 2

10. Find the value of 1% of 1% of 25% of 1000 is

- **A** 0.025

- **B** 0.0025

- **C** 0.25

- **D** 0.000025

11. C is the mid-point of PQ, if P is (4, x), C is (y, -1) and Q is (-2, 4), then x and y respectively are

- **A** -6 and 1

- **B** -6 and 2

- **C** 6 and -1

- **D** 6 and -2

12. In a given race the odds in favour of three horses A, B, C are 1:3; 1:4; 1:5 respectively. Assuming that dead heat is impossible the probability that one of them wins is

- **A** $\frac{7}{60}$

B $\frac{37}{60}$

C $\frac{1}{5}$

D $\frac{1}{8}$

13. A and B rent a pasture for 10 months; A puts in 80 cows for 7 months. How many can B put in for the remaining 3 months, if he pays half as much again as A?

A 120

B 180

C 200

D 280

SNAP Syllabus PDF

14. A property dealer sells a house for ` 6,30,000 and in the bargain makes a profit of 5%. Had he sold it for ` 5,00,000, then what percentage of loss or gain he would have made?

A $2\frac{1}{4}\%$ gain

B 10% loss

C $12\frac{1}{2}\%$ loss

D $16\frac{2}{3}\%$ loss

▶ VIDEO SOLUTION

15. The average of 11 numbers is 10.9. If the average of the first six numbers is 10.5 and that of the last six numbers is 11.4, then the middle number is :

A 11.5

B 11.4

C 11.3

D   11.0

16. A can do a piece of work in 25 days and B in 20 days. They work together for 5 days and then A goes away. In how many days will B finish the remaining work ?

A   17 days

B   11 days

C   10 days

D   15 days

17. At a simple interest, 800 becomes 956 in three years. If the interest rate, is increased by 3%, how much would 800 become in three years?

A   1020.80

B   1004

C   1028

D Data inadequate

18. The jogging track in a sports complex is 726 metres in circumference. Pradeep and his wife start from the same point and walk in opposite directions at 4.5 km/h and 3.75 km/h, respectively. They will meet for the first time in

   A 5.5 min

   B 6.0 min

   C 5.28 min

   D 4.9 min

19. What number must be added to the expression $16a^2 - 12a$ to make it a perfect square?

   A $\frac{9}{4}$

   B $\frac{11}{2}$

   C $\frac{13}{2}$

   D 16
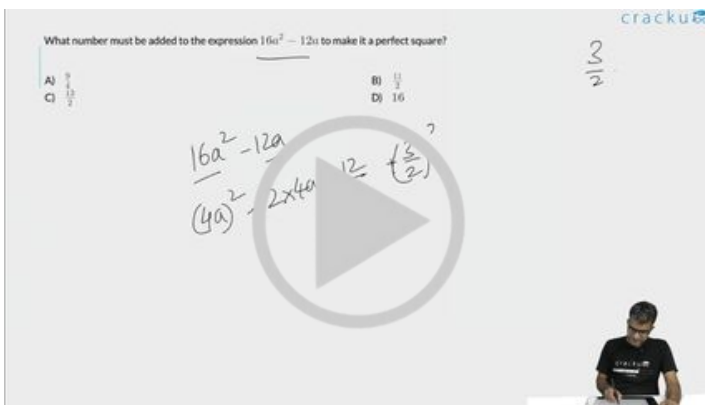

▶ VIDEO SOLUTION

20. The monthly salaries of A and B together amount to ` 40,000. A spends 85% of his salary and B, 95% of his salary. If now their savings are the same, then the salary (in `) of A is

   A 10,000

   B 12,000

   C 16,000

   D 18,000

21. The difference of two numbers is 1365. On dividing the larger number by the smaller, we get 6 as quotient and 15 as remainder. What is the smaller number ?

A 240

B 270

C 295

D 360
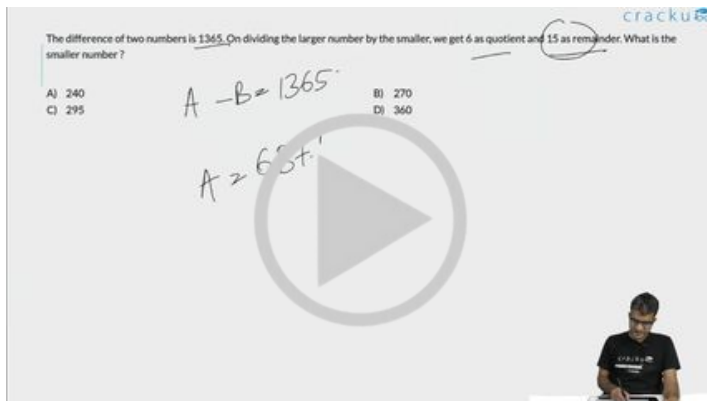

22. In the adjoining figure, ABCD is a cyclic quadrilateral. If AB is a diameter, BC = CD and $\angle ABD = 40°$, find the measure of $\angle DBC$.
A 65

B 25

C 45

D 60

23. A bag contains 5 white and 3 black balls, and 4 are successively drawn out and not replaced. What's the chance of getting different colours alternatively?

A $\frac{1}{6}$

B $\frac{1}{5}$

C $\frac{1}{4}$

D $\frac{1}{7}$

24. What is the value of x in the following expression?

$$x + \log_{10}(1 + 2^x) = x \log_{10} 5 + \log_{10} 6$$

A 1

B 0

C -1

D 3

25. Which of the following functions is an odd function?

A $2^{-x.x}$

B $2^{x-x.x.x.x}$

C Both (a) and (b)

D Neither (a) nor (b)

26. The cost of the paint is 36.50 per kg. If 1 kg of paint covers 16 square feet, how much will it cost to paint outside of a cube having 8 feet each side?

A 692

B 768

C 876

D 972

27. A horse take $2\frac{1}{2}$ seconds to complete a round around a circular field. If the speed of the horse was 66 m/sec, then the radius of the field is,
[Given $\pi = \frac{22}{7}$]

A 25.62 m

B 26.52 m

C 25.26 m

D 26.25 m

28. One litre of water is evaporated from 6 litres of a solution containing 5% salt. The percentage of salt in the remaining solution is

A $4\left(\frac{4}{9}\right)\%$

B $5\left(\frac{5}{7}\right)\%$

C   5%

D   6%

29. The last two-digits in the multiplication $122 \times 123 \times 125 \times 127 \times 129$ will be

A   20

B   50

C   30

D   40

▶ VIDEO SOLUTION

30. If the numerator of a fraction is increased by 200% and the denominator is increased by 200%, then resultant fraction is $2\frac{4}{5}$. What is the original fraction?

A $\frac{4}{7}$

B $\frac{13}{12}$

C $\frac{11}{12}$

D   None

31. The value of $\dfrac{\frac{1}{2}\,divided\,by\,\frac{1}{2}\,of\,\frac{1}{2}}{\frac{1}{2}+\frac{1}{2}\,of\,\frac{1}{2}}$

A $\frac{2}{3}$

B   2

C $\frac{4}{3}$

D   3

32. On a journey across Kolkata, a taxi averages 40 kmph for 60% of distance, 30 kmph for 20% of the distance, and 10 kmph for the remainder. The average speed of the whole journey is

A   25 kmph

B   26 kmph

C   24 kmph

D   30 kmph
33. Two numbers are such that the square of greater number is 504 less than 8 times the square of the other. If the numbers are in the ratio 3 : 4. Find the number.

A   15 and 20

B   6 and 8

C   12 and 16

D   9 and 12

34. A bag contains 100 tickets numbered 1, 2, 3, ... 100. If a ticket is drawn out of it at random, what is the probability that the ticket drawn has the digit 2 appearing on it?

A $\frac{21}{100}$

B $\frac{19}{100}$

C $\frac{32}{100}$

D $\frac{23}{100}$

35. A train passes a station platform in 36 seconds and a man standing on the platform in 20 seconds. If the speed of the train is 54 km/h, then find the length of the platform.

A 225 m

B 235 m

C 230 m

D 240 m

Instructions [36 - 40]

Study the pie chart and table carefully to answer the questions that below:

Number of employees working in various departments of an organization and the ratio of men to women in the same

Accounts 8%
HR 11%
Production 15%
Merchandising 18%
IT 26%
Marketing 22%
Total number of Employees = 4600
Ratio of men to women

Departments	Men	Women
HR	1	1
Accounts	3	1
Production	3	2
IT	1	3
Marketing	1	1
Merchandising	5	1

36. What is the number of women in the accounts department ?

A 86

B 102

C 80

D 92

37. What is the total number of employees working in the IT department and HR department together ?

A 1628

B 1742

C 1766

D 1702

38. What is the ratio of the total number of men to the total number of women working in all the departments together ?

A 63 : 41

B 41 : 27

C 53 : 47

D 27 : 19

39. The number of women in the merchandising department forms what per cent of the total number of employees in the organization ?

A 3%

B 6%

C 1%

D 12%

40. What is the ratio of the number of men in the production department to the number of men in the marketing department ?

A 7 : 3

B 9 : 11

C 13 : 7

D 11 : 9

Reasoning

Instructions [41 - 42]

In each of the following questions, there are two words / set of letters / numbers to the left of the sign :: which are connected in some way. The same relationship obtains between the third words / set of letters / numbers and one of the four alternatives under it. Find the correct alternative in each question.

41. DRIVEN : EIDRVN :: BEGUM : ?

    A   EUBGM

    B   MGBEU

    C   BGMEU

    D   UEBGM

42. Shout : Whisper :: Run : ?

    A   Stay

    B   Stand

    C   Walk

    D   Hop

43. Question below has a three statement, followed by four conclusions numbered I, II, III and IV. You have to consider every given statement as true, even if it does not conform to the well known facts. Read the conclusions and then decide which of the conclusions can be logically derived.
Statements:
I. Some toys are pens.
II. Some pens are papers.
III. Some papers are black.
Conclusions:
I. Some toys are black.
II. No pen is black.
III. No toy is black.
IV. Some pens are black.

    A   None follows

    B   Either II or IV

    C   Either I or III and either II or IV

    D   Either I or IV

    E   All of the above

44. A fibres 5 shots to B's 3 but A kills only once in 3 shots while B kills once in 2 shots. When B has missed 27 times, A has killed

    A   30 birds

    B   60 birds

C 72 birds

D 90 birds

45. At what time between 9PM and 10PM minute hand and hour hand will be opposite to each other?

A 9:15 $\frac{4}{11}$

B 9:16 $\frac{4}{11}$

C 9:12 $\frac{4}{11}$

D None of these

46. Read the following information and answer the questions given below it :
'A + B' means 'A is the daughter of B';
'A $\times$ B' means 'A is the son of B';
'A - B' means 'A is the wife of B';
If P $\times$ Q - S, which of the following is true ?

A S is wife of Q.

B S is father of P.

C P is daughter of Q.

D None of these

Instructions [47 - 50]

In a school students at Pioneer career Kolkata wrote Mock test which has three subjects DI, VA and QA, here is the result of these students. 80 students cleared cut off in DI, 70 in VA and 60 in QA. Only 40 students cleared all the three subjects. 10 students failed to clear cut off even in one subjects. 50 students cleared cut off in VA and QA. 5 students cleared in cut off in only QA.

47. What is the minimum number of students who appeared in the Mock test.

A 105

B 110

C 115

D None of these

48. What is the minimum number of students who did not clear cut off in exactly two subjects?

A 5

B 15

C 20

D None of these

49. What is the ratio of number of students who didn't clear cut off DI, but cleared cut off in QA to the number of students who didn't clear cut off only in VA

A 3:1

B 3:2

C 1:3

D None of these

50. If number of students who didn't clear cut off in at least two subjects is maximum possible then find the number of students who failed in exactly one subject?

A 5

B 15

C 20

D None of these

51. Five persons with names P, M, U, T and X live separately in any one of the following: a palace, a hut, a fort, a house or a hotel. Each one likes two different colors from among the following: blue, black, red, yellow and green. U likes red and blue. T like black. The person
living in a palace does not like black or blue. P likes blue and red. M likes yellow. X lives in a hotel. M lives in a:

A Hut

B Palace

C Fort

D House

52. Sangeeta remembers that her father's birthday was certainly after eighth but before thirteenth of December. Her sister Natasha remembers that their father's birthday was definitely after ninth but before fourteenth of December. On which date of December was their father's birthday ?

A 10th

B 11th

C 12th

D Data inadequate

53. Rohit walked 25 metres towards South. Then he turned to his left and walked 20 metres. He then turned to his left and walked 25 metres. He again turned to his right and walked 15 metres. At what distance is he from the starting point and in which direction?

    A   35 metres east

    B   35 metres north

    C   40 metres east

    D   60 metres east

54. In the following question, a statement is given followed by two conclusions I and II. Give answer :
Statement :
The best way to escape from a problem is to solve it.
Conclusions :
I. Your life will be dull if you don't face problem.
II. To escape from problem, you should always have some solutions with you.

    A   if only conclusion I follows;

    B   if only conclusion II follows;

    C   if either I or II follows;

    D   if neither I nor II follows;

Instructions [55 - 58]

Read the following information and answer the questions that follow:

Mr. Mansingh has five sons - Arun, Mahi, Rohit, Nilesh and Saurav, and three daughters - Tamanna, Kuntala and Janaki. Three sons of Mr. Mansingh were born first followed by two daughters. Saurav is the eldest child and Janki is the youngest. Three of the children are studying at Trinity School and three are studying at St. Stefan. Tamanna and Rohit study at St. Stefan School. Kuntala, the eldest daughter, plays chess. Mansorover school offers cricket only, while Trinity school offers chess. Beside, these schools offer no other games. The children who are at Mansorover School have been born in succession. Mahi and Nilesh are cricketers while Arun plays football. Rohit who was born just before Janki, plays hockey.

55. Arun is the _____ child of Mr. Mansingh.

    A 2nd

    B 3rd

    C 6th

    D 5th

56. Saurav is a student of which school?

    A   Trinity

    B   St. Stefan

C Mansarover

D Connot be determined

57. What game does Tamanna play?

A Cricket

B Hockey

C Football

D Cannot be determined

58. Which of the following pairs was not born in succession (ignore the order)?

A Mahi and Nilesh

B Kuntala and Arun

C Rohit and Janki

D Arun and Rohit

59. Read this question based on the information given below:
Wendy, a student, is an avid backgammon player. All students play either chess or checkers, but some checkers players do not play chess because they do not understand chess strategy. Backgammon players never play checkers, because they do not find checkers challenging. Therefore, Wendy must understand chess strategy.
Which of the following must be true for the conclusion drawn above to be logically correct?

A All chess players understand chess strategy

B Backgammon is more challenging than checkers

C Chess is more challenging than backgammon

D All students who find backgammon challenging play checkers
60. In the following question, a statement is given followed by three assumptions numbered I, II and III. Consider the statement and the following assumptions and decide which of the assumptions is implicit.
Statement :
India's economic growth has come at a terrible price of increased industrial and vehicular pollution.
Assumptions :
I. Pollution is a part of industrial society.
II. Indian economic growth is based on only industrial growth.
III. A country desires economic growth with manageable side-effects.

A Only I is implicit

B Only II is implicit

C Only I and III are implicit

D Only III is implicit

61. In a joint family, there are father, mother, 3 married sons and one unmarried daughter. Of the sons, two have 2 dauthers each, and one has a son. How many female members are there in the family ?

A 2

B 3

C 6

D 9

Instructions [62 - 63]

In the following letter series, some of the letters are missing, which are given below it. Choose the correct alternative.

62. D_F_DEE_D_EF_DE_F

A EFFDED

B EFFDDF

C EFFDFE

D None of the above

63. If every 2 out of 3 ready-made shirts need alterations in the sleeves, 3 out of 4 ready-made shirts need alterations in the collar, and every 4 out of 5 need it in the body, how many alterations will be required for 60 shirts?

A 88

B 123

C 133

D 143

64. In the following question, a statement is given followed by three assumptions numbered I, II and III. Consider the statement and the following assumptions and decide which of the assumptions is implicit.
Statement :
"Smoking is injurious to health"-a warning printed on the cigarette packets.
Assumptions :
I. People read printed matter on the cigarette packet.
II. People take careful note of warning.
III. Non-smoking promotes health.

A Only I is implicit

B   Only I and II are implicit

C   Only II is implicit

D   All are implicit

Instructions [65 - 68]

Read the following information answer the question that follow:
Some people enter a conference room and get seated around a circular table.
The following is known about them.
(i) The first to enter sits opposite to one who belongs to Durgapur but right of Ranchi.
(ii) Teacher belongs to Kolkata and is right to IT professional.
(iii) The guy from Durgapur is adjacent to teacher and architect and opposite to doctor.
(iv) The guy from Ranchi is opposite to architect who is not from Dharbhanga.
(v) The doctor belongs to Chennai and sits adjacent to those who came at 3rd and 6th positions.
(vi) The guy from Burdwan is adjacent to guys who came at 3rd and 5th positions.
(vii) Professor who didn't come at 5th position is equidistant from guys from Ranchi and Durgapur.

65. Professor is opposite to-

A   Teacher

B   IT professional

C   Dancer

D   None of these

66. Guy from Burdwan is adjacent to-
(1) Professor and architect
(2) Guys from Dharbhanga and Durgapur
(3) Architect and IT professional

A   Only 1

B   Only 2

C   Only 2 and 3

D   None of these

67. The guy from Burdwan sitting opposite to guy from Ranchi came at which position?

A   2nd

B   4th

C   5th

D   Cannot be determined

68. The dancer is from-

A Ranchi

B Dharbhanga

C Durgapur

D None of these
69. In a queue, A is eighteenth form the front while B is sixteenth from the back. If C is twentyfifth from the front and is exactly in the middle of A and B, then how many persons are there in the queue ?

A 45

B 46

C 47

D 48

70. Efficiency is all right in its place, in the shop, the factory, the store. The trouble with efficiency is that it wants to rule our play as well as our work; it won't be content to reign in the shop, it follows us home. It can be inferred from the above passage that:

A Efficiency can become all - pervading

B Efficiency does not always pay

C Efficiency can be more of a torture than a blessing

D None of these

General English

Instructions [71 - 73]

Choose the correct antonym for the word below from the options provided.

71. 'Native'

A Endemic

B Indigenious

C Genuine

D Foreign
72. 'Attenuate'

A   Contract

B   Expand

C   Mitigate

D   Disable

73. 'Cajole'

A   Deceive

B   Mislead

C   Build up

D   Bully

74. Choose the correct synonym for the word below from the options provided.
'consanguinity'

A   Illegitimate

B   Adoptive

C   Nonbiological

D   Kin

75. Choose the word spelt correctly:

A   Demurrage

B   Dimurrage

C   Demurage

D   Demerage

76. From the option below,choose the word with the incorrect spelling:

A   Allotted

B   Generous

C   Deprive

D   Prenicious

Instructions [77 - 78]

Which of phrases given below each sentence should replace the phrase printed in bold type to make the grammatically correct? If the sentence is correct as it is, mark 'd' as the answer.

77. The **long or short of it** is that I do not want to deal with that new firm.

    A   The long and short of it

    B   The long and short for it

    C   The long or short for it

    D   No correction required

78. Most of the Indian workers are as healthy **as, if not healthier** than, British workers.

    A   as if healthy as not healthier

    B   healthier but not as healthy

    C   as healthy, if not healthier

    D   No correction required

79. Choose the correct options for the given blanks.
You would _____ surprised to get this letter.

    A   doubtless be somewhat

    B   doubtlessly be somewhat

    C   somewhat doubtlessly be

    D   doubtlessly somewhat be

80. Choose the correct options for the given blanks.
If you had been a little more proactive, this golden opportunity would not have____

    A   Escaped your fingers

    B   Slipped through your fingers

    C   Slipped through your head

    D   Escaped your hands

81. Choose the correct options for the given blanks.
Although the rival cricket team was quite competitive it did not _____ against our team of veterans.

    A   Stand a ground

    B   Stand a chance

C Stand a stead

D None of these

82. Choose the correct options for the given blanks.
I told him that I could invest some money in a joint venture with him, but as I was busy with my own projects I could only be a ____

A Visiting partner

B Half partner

C Sleeping partner

D Inactive partner

83. Choose the correct options for the given blanks.
We must always _____ people who indulge in anti-social activities.

A Steer clear of

B Stay away

C Stick out of

D Steer clear

84. Choose the correct options for the given blanks.
Are you telling the truth or just ____ ?

A Spinning a tale

B Spinning a yarn

C Spinning a story

D None of these

85. Choose the correct options for the given blanks.
There is a _____ amount of fatty acids and carbohydrates in some of the imported chocolates

A neglecting

B negligent

C negligible

D neglected

86. Choose the correct options for the given blanks.
Some people ___ themselves into believing that they are indispensable to the organisation they work for.

A force

B denigrate

C delude

D fool

87. Choose the correct options for the given blanks.
Many Tamil Speaking Sri Lankans _____ from the island to escape the military and its atrocities.

A flown

B flee

C fled

D flew

88. Choose the correct options for the given blanks.
These essays are intellectually ____ and represent various levels of complexity.

A revealing

B modern

C demanding

D superior

89. Choose the correct options for the given blanks.
How do you expect that country to progress when her government is corrupt, _____ and still largely feudal.

A devalued

B dwindling

C despotic

D demeaning

90. Choose the correct options for the given blanks.
The teacher must _____ the unique style of a leaner in order to _____ it to desired knowledge.

A advocate _____ direct

B perpetuate _____ develop

C appreciate _____ focus

D absorb _____ maintain

91. Choose the correct options for the given blanks.

He was an _____ musician, had been awarded the George medal during the second world war and _____ with the title of Rai Bahadur .

A outstanding _____ popularise

B underestimate _____ declared

C accomplised _____ honoured

D impressive _____ assigned

92. Choose the correct options for the given blanks.

Management can be defined as the process of _____ organizational goals by working with and through human and non-human resources to _____ improve value added to the world.

A getting _____ deliberately

B managing _____ purposefully

C targeting_____ critically

D reaching _____continuously

Instructions [93 - 98]

Read the following Passage and answer the questions below:

The World Trade Organisation (WTO) was created in the early 1990s as a component of the Uruguay Round negotiation. However, it could have been
negotiated as part of the Tokyo Round of the 1970's, since that negotiation was an attempt at a 'constitutional reform' of the General Agreement on Tariffs and Trade (GATT). Or it could have been put off to the future, as the US government wanted. What factors led to the creation of the WTO in the early 1990s? One factor was the pattern of multilateral bargaining that developed late in the Uruguay Round. Like all complex international agreements, the WTO was a product of a series of trade-offs between principal actors and groups. For the United States, which did not want a new organization, the dispute settlement part of the WTO package achieved its long-standing goal of a more effective and more legal dispute settlement system.

For the Europeans, who by the 1990s had come to view GATT dispute settlement less in political terms and more as a regime of legal obligations, the WTO package was acceptable as a means to discipline the resort to unilateral measures by the United States. Countries like Canada and other middle and smaller trading partners were attracted by the expansion of a rules based system and by the symbolic value of a trade organization, both of which inherently support the weak against the strong. The developing countries were attracted due to the provisions banning unilateral measures. Finally, and perhaps most important, many countries at the Uruguay Round came to put a higher priority on the export gains than on the import losses that the negotiation would produce, and they came to associate the WTO and a rules-based system with those gains. This reasoning replicated in many countries - was contained in U.S. Ambassador Kantor's defense of the WTO, and it amounted to a recognition that international
trade and its benefits cannot be enjoyed unless trading nations accept the discipline of a negotiated rules-based environment.

A second factor in the creation of the WTO was pressure from lawyers and the legal process. The dispute settlement system of the WTO was seen as a victory of legalists over pragmatists but the matter went deeper than that. The GATT, and the WTO, are contract organizations based on rules, and it is inevitable that an

organization created to further rules will in turn be influenced by the legal process. Robert Hudec has written of the 'momentum of legal development', but what is this precisely? Legal development can be defined as promotion of the technical legal values of consistency, clarity (or, certainty) and effectiveness; these are values that those responsible for administering any legal system will seek to maximize. As it played out in the WTO, consistency meant integrating under one roof the whole lot of separate agreements signed under GATT auspices; clarity meant removing ambiguities about the powers of contracting parties to make certain decisions or to undertake waivers; and
effectiveness meant eliminating exceptions arising out of grandfather-rights and resolving defects in dispute settlement procedures and institutional provisions.

Concern for these values is inherent in any rules based system of co-operation, since without these values, rules would be meaningless in the first place. Rules, therefore, create their own incentive for fulfillment. The momentum of legal development has occurred in other institutions besides the GATT, most notably in the European Union (EU).

Over the past two decades, the European Court of Justice (ECJ) has consistently rendered decisions that have expanded incrementally the EU's internal market, in which the doctrine of 'mutual recognition' handed down in the case Cassis de Dijon was a key turning point. The Court is now widely recognized as a major player in European integration, even though arguably such a strong role was not originally envisaged in the Treaty of Rome, which initiated the current European Union. One means the Court used to expand integration was the 'teleological method of interpretation' whereby the actions of member states were evaluated against 'the accomplishment of the most elementary community goals set forth in the Preamble to the [Rome] treaty.

The teleological method represents an effort to keep current policies consistent with stated goals, and it is analogous to the effort in GATT to keep contracting party trade practices consistent with stated rules. In both cases legal concerns and procedures are an independent force for further co-operation. In large part, the WTO was an exercise in consolidation. In the context of a trade negotiation that created a near-revolutionary expansion of international trade rules, the formation of the WTO was a deeply conservative act needed to ensure that the benefits of the new rules would not be lost. The WTO was all about institutional structure and dispute settlement, these are the concerns of conservatives and not revolutionaries, which is why lawyers and legalists took the lead on these issues. The WTO codified the GATT institutional practice that had developed by custom over three decades, and it incorporated a new dispute settlement system that was necessary to keep both old and new rules from becoming a sham. Both the international structure and the dispute settlement system were necessary to preserve and enhance the integrity of the multilateral trade regime that had been built incrementally from the 1940s to the 1990s.

93. What could be the closest reason why the WTO was not formed in the 1970s?

    A   The US government did not like it.

    B   Important players did not find it in their best interest to do so.

    C   Lawyers did not work for the dispute settlement system

    D   The Tokyo round negotiations was an attempt at constitutional reform

94. The most likely reason for the acceptance of the WTO package by nations was that

    A   it had the means to prevent the US from taking unilateral measures.

    B   they recognized the need for a rule-based environment to protect the benefits of increased trade.

    C   it settles disputes more legally and more effectively.

    D   its rule-based system leads to export gains.

95. According to the passage, WTO promoted the technical legal values partly through

    A   integrating under one roof the agreements signed under GATT.

B   rules that create their own incentive for fulfillment

C   grandfather-rights exceptions and defects in dispute settlement procedures.

D   ambiguities about the powers of contracting parties to make certain decisions.

96. In the method of interpretation of the European Court of Justice

A   current policies needed to be consistent with stated goals

B   contracting party trade practices needed to be consistent with stated rules.

C   enunciation of the most elementary community goals needed to be emphasized.

D   actions of member states needed to be evaluated against the stated community goals

97. In the statement '.... it amounted to a recognition that international trade and its benefits cannot be enjoyed unless trading nations accept the discipline of a negotiated rules-based environment', 'it' refers to

A   Ambassador Kantor's defence of the WTO

B   the higher priority on export gains placed by many countries at the Uruguay Round

C   the export gains many countries came to associate with a rule-based system

D   the provision of a rule-based system by the WTO.

98. The importance of Cassis de Dijon is that it

A   gave a new impetus to the momentum of legal development at the European Court of Justice.

B   resulted in a decision that expanded incrementally the EU's internal market

C   strengthened the role of the Court more than envisaged in the Treaty of Rome.

D   led to a doctrine that was a key turning point in European integration.

Instructions [99 - 101]

Read the following Passage and answer the questions below:

A TED talk (the acronym stands for Technology, Entertainment, and Design) is one of the routes to academic stardom that didn't exist a decade ago. (The 30th anniversary celebration aside, curators only began posting fame-making free online videos in 2006.) Although TED plays an inordinate role in setting the tone for how ideas are conveyed—not only because of the reach of its videos but also through spinoffs like regional "TEDx" events and the TED Radio Hour, one of the few places nonpolicy intellectuals get substantial on-air time—it's just one of a number of platforms that are changing the ecology of academic celebrity. These include similar ideas-in-nuggets conclaves, such as the Aspen Ideas Festival and PopTech, along with huge online courses and —yes, still—blogs. These new, or at least newish, forms are upending traditional hierarchies of academic visibility and helping to change which ideas gain purchase in the public discourse. In a famous essay, "The Unbearable Ugliness of Volvos," first published in the early 90s, the literary scholar Stanley Fish wrote that "the

flourishing of the lecture circuit has brought with it new sources of extra income ... [and] an ever-growing list of stages on which to showcase one's talents, and geometric increase in the availability of the commodities for which academics yearn, attention, applause, fame, and ultimately, adulation of a kind usually reserved for the icons of popular culture." Fish was Exhibit A among professors taking advantage of such trends, and his trailblazing as a lit-crit celebrity inspired the dapper, globe-trotting lit theory operator Morris Zapp, a character in David Lodge's academic satire Small World. But the world Fish was describing, where no one could live-tweet the lectures, let alone post the talks for worldwide distribution, now seems sepiatoned. "If David Lodge's Morris Zapp were alive and kicking today," observes John Holbo, an associate professor of philosophy at the National University of Singapore, and blogger at Crooked Timber and the Valve, "he'd be giving a TED talk, not an MLA talk. Which is to say: He wouldn't be doing Theory. He probably wouldn't be in an English department.

99. The passage is mainly about:

A   Technology, Entertainment, and Design

B   Turning over the conventional.

C   Gaining popular adulation.

D   Changing presentations.

E   Worldwide metamorphosis

100. The phrase "sepia-toned" implies :

A   The end of an era.

B   The way things were.

C   The brown pigment.

D   The time bound nature of things

E   The decadence of ideas.

101. Which of the following cannot be inferred from the passage?

A   TED is the future

B   Theory can no longer be counted on.

C   Philosophy is best understood through demos.

D   TED is irreplaceable

Instructions [102 - 104]

In questions below, each passage consist of six sentences. The first and sixth sentence are given in the beginning. The middle four sentences in each have been removed and jumbled up. These are labelled as P, Q, R and S. Find out the proper order for the four sentences.

102. S1: In the middle of one side of the square sits the Chairman of the committee, the most important person in the room.
P : For a committee is not just a mere collection of individuals.
Q : On him rests much of the responsibility for the success or failure of the committee.

R : While this is happening we have an opportunity to get the 'feel' of this committee.
S : As the meeting opens, he runs briskly through a number of formalities.
S6: From the moment its members meet, it begins to have a sort nebulous life of its own.
The Proper sequence should be:

A   RSQP

B   PQRS

C   SQPR

D   QSPR

103. S1: All the land was covered by the ocean.
P : The leading god fought the monster, killed it and chopped its body in to two halves.
Q : A terrible monster prevented the gods from separating the land from the water.
R : The god made the sky out of the upper part of the body and ornamented it with stars.
S : The god created the earth from the lower part, grew plants on it and populated it with animals.
S6: The god moulded the first people out of clay according to his own image and mind.
The Proper sequence should be:

A   PQRS

B   PQSR

C   QPSR

D   QPRS

104. S1: And then Gandhi came.
P : Get off the backs of these peasants and workers, he told us, all you who live by their exploitation.
Q : He was like a powerful current of fresh air, like a beam of light, like a whirlwind that upset many things.
R : He spoke their language and constantly drew their attention to their appalling conditions.
S : He didn't descent from the top, he seemed to emerge from the masses of India.
S6: Political freedom took new shape and then acquired a new content.
The Proper sequence should be:

A   QSRP

B   SRQP

C   RSQP

D   PRSQ

Instructions [105 - 107]

In each of the following questions a related pair of words or phrases is followed by five lettered pairs of words or phrases. Select the lettered pair that best expresses a relationship that is least similar to the one expressed in the original pair.

105. XENOPHOBIA : FOREIGNERS

A   claustrophobia : foreigners

B   anglophobia : Englishmen

C   bibliophobia : book

D   hemophobia : blood

106. SAIL : SHIP

A   propeller : dog

B   radar : satellite

C   hydrogen : balloon

D   accelerator : car

107. CANINE : DOG

A   feline : cat

B   acquatic : parrot

C   serpentine : cobra

D   vulpine : fox

Instructions [108 - 110]

In each of the following questions there are sentences that form a paragraph. Identify the sentence(s) or part(s) of sentence(s) that is/are correct in terms of grammar and usage (including spelling, punctuation and logical consistency). Then, choose the most appropriate option.

108. A. In 1849, a poor Bavarian imigrant named Levi Strauss.
B. landed in San Francisco, California,
C. at the invitation of his brother-in-law David Stern.
D. owner of dry goods business.
E. This dry goods business would later became known as Levi Strauss & Company.

A   B only

B   B and C

C   A and B

D   A only

E   A, B and D

109. A. In response to the allegations and condemnation pouring in,
B. Nike implemented comprehensive changes in their labour policy.
C. Perhaps sensing the rising tide of global labour concerns,
D. from the public would become a prominent media issue,
E. Nike sought to be a industry leader in employee relations.

A   D and E

B   D only

C   A and E

D   A and D

E   B, C and E

110. A. Charges and countercharges mean nothing.
B. to the few million who have lost their home.
C. The nightmare is far from over, for the government.
D. is still unable to reach hundreds who are marooned.
E. The death count have just begun.

A   A only

B   C only

C   A and C

D   A, C and D

E   D only

General Awareness

111. Which of the following is not correct with regard to RTI Act, 2005?

A   An officer as public officer shall be designated to provide information to citizens by every public authority

B   The aids provide for the penalty of upto Rs 25,000 on the public information officers is to be fails to divulge the information fought by the citizen.

C   The Act provides for setting up of central information and state information commission

D   The information sought shall be made available within 90 days

112. Who estimated national income in India first?

A   Dadabhai Naoroji

B   R.C. Dutt

C   V.K. R.V. Rao

D   D.R. Gadgil

113. The banks are required to maintain a certain ratio between their cash in hand and total assets. This is called

A   Statutory Bank Ratio (SBR)

B   Statutory Liquid Ratio (SLR)

C   Central Bank Reserve (CBR)

D   Central Liquid Reserve (CLR)

114. Dwarf wheat (mexican) is introduced in India by

A   Dr. N. E. Borlang

B   Dr. M.S. Swaminathan

C   Dr. Subramanian

D   Dr. B. P. Pal

115. Russian space craft established a new record by reaching the International Space Station (ISS) in only 6 hours, while earlier the space crafts used to take two or three days to reach the ISS. Which is this space craft ?

A   Sputnik - II

B   Soyuz

C   Zond

D   Venera

116. What contribution has been made by Ernest Binfield Havell (E.B. Havell) in the Indian art and culture?

A   E.B. Havell was a official of East India company, whose efforts led to establishment of Asiatic Society

B   E.B. Havell made efforts in establishing the Bengal school of art

C   E.B. Havell was a famous indologist who translated several Sanskrit dramas in English

D   E.B. Havell was a teacher at Pune who established the National Archives of India

117. The India Human Development award in association with UNDP instituted in

A   2010

B   2011

C   2012

D   2013

118. The book 'The Audacity of Hope' is written by

A Nayantara Sehgal

B Aravind Adiga

C Vikram Seth

D Barrack Obama

119. In which Olympic Games, Hockey was introduced for the first time

A London, 1908

B Stockholm, 1912

C St. Louis, 1904

D Paris, 1900

120. Larry page and Sergey Brin are well known as

A Creators of Bluetooth device

B Founders of Google

C Stem cell researchers

D Scientists

121. Environmental Kuznets curve

A a semi-circle curve suggesting increase in per-capita income increases the pollution

B a U-shaped curve suggesting the level of development and carbon emission

C suggest a U-shaped relationship between the carbon emission and Ozone layer depletion

D suggest a bell-shaped relationship between the concentration of certain pollution emission and per-capita real GDP

122. Which of the following are correctly matched?
1. Viena : protection
convention : of ozone layer
2. Stockholm : Hazardous wastes
convention and their disposal
3. Rotterdam : Hazardous
convention chemicals
4. Basel : persistent organic
convention pollutants

A   1 and 2

B   1 and 3

C   2, 3 and 4

D   1, 2 and 4

123. Which of following statement is true about the Primary deficit?

A   It is difference between Revenue Receipts and Revenue Expenditure

B   It is difference between Capital Receipts and Interest Payment

C   It is difference between the Fiscal Deficit and Interest Payment

D   It is addition of Fiscal Deficit and Interest Payment

124. The slogan of 'poverty abolition' was given in which Five Year Plan?

A   Second plan

B   Fourth plan

C   Fifth plan

D   Sixth plan

125. REDD Plus Programme is concerned with which of the following ?

A   Nuclear Non-Proliferation Treaty (NPT)

B   Convention on Biological Diversity (CBD)

C   Millennium Development Goals (MDG)

D   Earth Summit

126. Which is the largest stock exchange in the world ?

A   The New York Stock Exchange (NYSE)

B   The Swiss Stock Exchange (SWX)

C   The London Stock Exchange (LSE)

D   The National Stock Exchange (NSE)

127. Between which two countries was the battle of Stalingard fought in 1942-43 ?

A Russia and Germany

B Russia and Japan

C Germany and Italy

D Italy and Russia

128. International Day for Disaster Reduction is observed on

A 9th August

B 13th October

C 24th November

D 11th December

129. Name the India-China joint military exercise that started in Pune recently?

A Surya-Kiran 2014

B Hand-in-Hand 2014

C Mitra-Maitri 2014

D Yudh Abhyas 2014

130. What would you study if you were a speleologist ?

A Mineral deposits

B Tress

C Birds

D Caves

131. In a swap transaction where two fixed-floating currency swaps are combined to form a fixed to fixed currency swap is known as

A Roller-coaster swap

B Amortized swap

C Amortizing swap

D Circus swap

132. In monetary terminology, what is called the 'monetary base' or 'high powered money' ?

A the total assets of RBI

B the total liability of RBI

C   the total debt of the government

D   the total foreign exchange of RBI

133. Which is considered as the mother of all Central Banks ?

A   Bank of England

B   Risks Bank of Sweden

C   Federal Reserve Bank

D   Reserve Bank of India

134. The catch-line 'American dream, Indian soul' was of the film....?

A   American Desi

B   Aa Ab Laut Chalein

C   Indian

D   Pardes

135. The words 'secular' and 'socialist' were added to the Indian Constitution in 1976 by amending the

A   All of the above

B   Directive Principles

C   Preamble

D   Fundamental Rights

136. Who declared that his ultimate aim was to wipe 'every tear from every eye'?

A   Rajendra Prasad

B   Sardar Patel

C   Jawaharlal Nehru

D   Mahatma Gandhi

137. Amnesty International is an organisation associated with which of the following fields ?

A   Protection of Cruelty to animals

B   Environment protection

C   Protection of human rights

D   Protection of historic monuments

138. Google's main shopping service is called

A   Froggle

B   Cragle

C   Doudle

D   Ibibo

E   Google+

139. The branch of medical science which is concerned with the study of disease as it affects a community of people is called

A   epidemiology

B   oncology

C   paleontogy

D   pathology

140. Which of the following ports of system unit can be used to attach an external storage media/peripheral devices ?

A   VGA port

B   USB port

C   Parallel port

D   Serial port

141. This personality is the father of radio science and has pioneered Bengali science fiction in the country. He invented the crescograph, a device that measures growth in plants. Identify him.

A   Homi Bhabha

B   Jagadish Chanddra Bose

C   CV Raman

D   Govind Khurana

142. The Union Cabinet approved signing of three SAARC agreements that is to be signed at 18th SAARC Summit scheduled to be held recently. Which one of the following is not one of the SAARC agreements ?

A   SAARC Regional Railays Agreement

B   SAARC Motor Vehicles Agreement

C   SAARC Framework Agreement for Energy Cooperation (Electricity)

D   SAARC Inter governmental Transport Connectivity

143. The scientific term Fallstreak Hole Cloud was in news recently because

A   It appeared in the sky cover Gippsland in eastern Victoria of Britain

B   It appeared in the sky over Gippsland in eastern Victoria of Burma

C   It appeared in the sky over Gippsland in eastern Victoria of Australia

D   It appeared in the sky over Gippsland in eastern Victoria of New Zealand

144. Hyderabad recently found an intelligent way to manage the traffic problems in the city in a smart way be using H-TRIMS. What is the full form of H-TRIMS?

A   Hyderabad Traffic Integrated Maintenance System

B   Hyderabad Traffic Integrated Management System

C   Hyderabad Traffic Integrated Manipulation System

D   Hyderabad Traffic Inked Management System

145. Which international organisation recently passed a resolution of sports autonomy and sports as means to promote peace and development ?

A   International Olympic Committee

B   Commonwealth Games Federation

C   United Nations

D   Asia-Pacific Economic Cooperation

146. Liberty Medal is annually given to honour men and women of courage and conviction who strive to secure the blessings of liberty to people around the globe. It was established in ?

A   1987, to commemorate the bicentennial of the US Constitution

B   1988, to commemorate the bicentennial of the US Constitution

C   1990, to commemorate the bicentennial of the US Constitution

D   1997, to commemorate the bicentennial of the US Constitution

147. The Union Commerce Ministry recently cancelled approvals of nine special economic zones (SEZs).
I. Hindalco Industries
II. Chennai Business Park
III. Essar Jamnagar
IV. Adani Townships and Real Estate Company
Which option is correct?

A I, II and III

B I, III and IV

C II and III

D I, II, III and IV

148. World Wildlife Fund on released the Living Planet Report 2014. In this context, consider the following statements
I. The theme of the report is Species and Spaces, People and Places.
II. Populations of fish, birds, mammals, amphibians and reptiles have declined by 52 percent since 1970
III. Freshwater species have declined by 76 percent
IV. The report's measure of humanity's Ecological Footprint is provided by the Global Footprint Network
Which is/are correct?

A I, II and III

B I, III and IV

C II and III

D I, II, III and IV

149. Vanbandhu Kalyan Yojana (VKY) was launched by Union Ministry of Tribal Affairs to

A Lift human development indices of tribal people

B ensure that forest dwellers are not deprived of their due

C promote Tribal language

D establish a National Research Centre in the Tribal Research Institute

150. Name the player who won the IBSF World Billiards Championship in 2014.

A Ashok Mehta

B Geet Sethi

C Pankaj Advani

D None of these

Explanations

Quantitative Aptitude

1. **A**
Considering two vowels as one unit, total number of units = 4

Number of way of arranging these 4 units = 4! = 24 ways

2 vowels can be internally arranged in 2! ways 2 ways

Therefore total number of ways = 24*2 =48 ways.

2. **B**
AC= $\sqrt{AB^2 + BC^2} = \sqrt{6^2 + 8^2} = 10$

In-radius of right angled triangle = $\frac{(a+b-h)}{2}$

Inradius = $\frac{(6+8-10)}{2} = 2$

3. **C**
$m^2 - n^2 = (m+n)(m-n) = (2\tan\theta)(2\sin\theta) = 4\tan\theta\sin\theta$

Going by the options you have only mn or m/n

Case 1 : mn

mn= $(\tan\theta + \sin\theta)(\tan\theta - \sin\theta)$ = $\tan^2\theta - \sin^2\theta$ = $\frac{\sin^2\theta}{\cos^2\theta} - \sin^2\theta = \sin^2\theta\left(\frac{1}{\cos^2\theta} - 1\right) = \frac{\sin^2\theta}{\cos^2\theta}\left(1 - \cos^2\theta\right) = \tan^2\theta \cdot \sin^2\theta$

So $4\sqrt{mn} = 4\tan\theta \cdot \sin\theta$

4. **B**
Since P(B) and P(A) are mutually exclusive and exhaustive , thus, P(B)+P(A)=1

But we know that P(B)=3 P(A) , thus substituting in the above equation we get P(B)=3/4 and P(A)=1/4

Now they have asked P(B_) i.e. 1-P(B)=1-(3/4)=1/4

5. **C**
The profit will be shared based on amount and time the money was invested by person

For A : $(16000 \times 3) + (11000 \times 9)$ = 147,000

For B : $(12000 \times 3) + (17000 \times 9)$ = 189,000

For C : (21000×6) = 126,000

Share of B will be $\frac{189}{147+189+126} \times 26400 = 10,800$

Share of C will be $\frac{126}{147+189+126} \times 26400 = 7,200$

Difference is 3,600

6. **B**
$time = \frac{distance}{speed}$

$t1 = \frac{1500}{S}$

$t2 = \frac{1500}{S+250}$

Given t1 - t2 = 1/2 hours

So, $\frac{1500}{S} - \frac{1500}{S+250} = \frac{1}{2}$

On solving S=750kmph

7. **C**

For divisibility by 6, number should be divide by 3 and even.

Sum of number = 4 + 4 + 5 + 6 = 19

For divisible by 3, 2 number should be added so,

Number = 4456 + 2 = 4458

8. **D**

TPO is a right-angled triangle.

So $\sin(30) = \frac{OP}{TO} = \frac{3}{TO} => TO = 6$

Applying Pythagoras theorem in the triangle TPO, we get,

$PT^2 = TO^2 - OP^2 = 36 - 9 = 27$

PT= $3\sqrt{3}$ cm

9. **C**

$\log_{b^n}(a^m) = \frac{m}{n}\log_b a = \frac{m}{n} \cdot \frac{\log(a)}{\log(b)}$

So given equation becomes $\frac{4}{2} \cdot \frac{4}{2} \cdot \frac{\log(3)}{\log(2)} \cdot \frac{\log(2)}{\log(3)}$ = 4

10. **A**

$\frac{1}{100} \cdot \frac{1}{100} \cdot \frac{25}{100} \cdot 1000 = 0.025$

11. **A**

Midpoint of P(x1,y1) , Q(x2,y2) = C($\frac{x1+x2}{2}$, $\frac{y1+y2}{2}$)

So $y = \frac{4-2}{2}$, $-1 = \frac{x+4}{2}$

On solving x=-6 and y=1

12. **B**

Odds in favour of A = 1:3, thus P(A wins) = $\frac{1}{1+3} = \frac{1}{4}$

Odds in favour of B= 1:4, thus P(A wins) = $\frac{1}{1+4} = \frac{1}{5}$

Odds in favour of C = 1:5, thus P(A wins) = $\frac{1}{1+5} = \frac{1}{6}$

Since deadheat is not possible only 1 will win.

P(A or B or C wins) = $\frac{1}{4} + \frac{1}{5} + \frac{1}{6} = \frac{37}{60}$

13. **D**

It is given that B pays 1.5 times that of A

Let B put N number of cows for 3 month

$\frac{Money\ paid\ by\ B}{Money\ paid\ by\ A} = \frac{3}{2} = \frac{3 \times N}{80 \times 7}$

$N = 280$

14. **D**

$\frac{100000}{600000} \times 100\% = 16\frac{2}{3}\%$ Let the Cost Price of the house be C.P

$\left(1 + \frac{5}{100}\right) C.P = 630000$

$(1.05) C.P = 630000$

C.P = 600,000

If he sold house for 500,000; he would incur loss of 100,000

loss percent = $\frac{100000}{600000} \times 100\% = 16\frac{2}{3}\%$

▶ VIDEO SOLUTION

15. **A**

Let $a_1, a_2 ..... a_{11}$ be the 11 number

$a_1 + a_2 + ... + a_{11} = 11 \times 10.9 = 119.9$ .... (I)

Average of first six is 10.5 thus $a_1 + a_2 + ... + a_6 = 6 \times 10.5 = 63$ ....(II)

Average of last six is 10.5 thus $a_6 + a_7 + ... + a_11 = 6 \times 11.4 = 68.4$ ....(III)

(II)+(III)-(I) gives $a_6 = 11.5$

▶ VIDEO SOLUTION

16. **B**

Let 100 units of work be there.

$\eta_A = \frac{100}{25} = 4 units\ per\ day$

$\eta_B = \frac{100}{20} = 5 units\ per\ day$

Amount of work done when they work together for 5 days = $5 \times (\eta_A + \eta_B) = 5 \times (5+4) = 45\ units$

Remaining work = 100-45 = 55 units

Time taken by B = $\frac{55}{5} = 11\ days$

▶ VIDEO SOLUTION

17. **C**

Let the current interest be r%

$800 + \frac{800 \times r \times 3}{100} = 956$

r = 6.5%

Updated rate of interest = 3+6.5 = 9.5%

Sum after 3 years = $800 + \frac{800 \times 9.5 \times 3}{100} = 1028$

18. **C**

Since Pradeep and his wife are going in the opposite direction, their relative velocity will be added.

Their relative velocity = 4.5+3.75 = 8.25 km/hr = 137.5 m/min

Time taken to cover 726 meters = $\frac{726}{137.5} = 5.28$ minutes

19. **A**

$16a^2 - 12a = (4a)^2 - (2)(4a)\left(\frac{3}{2}\right)$

by adding $\left(\frac{3}{2}\right)^2$ we can write it as $\left(4a - \frac{3}{2}\right)^2$

Hence $\left(\frac{3}{2}\right)^2 = \frac{9}{4}$ is required answer

> ▶ VIDEO SOLUTION

20. **A**

Let a and b represent salaries of A and B respectively

then $a + b = 40000$...(I)

After spending 85% of his salary, savings of A will be = (0.15)a

After spending 95% of his salary, savings of A will be = (0.05)b

Their saving are equal, therefore (0.15)a = (0.05b) or 3a=b ...(II)

Solving eqn (I)and (II) we get a = 10,000

SNAP Online Coaching

21. **B**

Let smaller number be x

The bigger number will be $6x + 15$

Their difference = $5x + 15 = 1365$

$x = 270$ is required answer

> ▶ VIDEO SOLUTION

22. **B**

Since AB is the diameter $\angle ADB = 90^0$

Which gives $\angle DAB = 50^0$

ABCD is cyclic quadrilateral so $\angle A + \angle C = 180^0$

Thus $\angle DCB = 130^0$

In$\triangle$ BCD, 2x+130 = 150

$x = 25^0$

23. **D**

Probability of alternate balls when first ball is black = $\frac{5}{8} \times \frac{3}{7} \times \frac{4}{6} \times \frac{2}{5} = \frac{1}{14}$

Probability of alternate balls when first ball is white = $\frac{3}{8} \times \frac{5}{7} \times \frac{2}{6} \times \frac{4}{5} = \frac{1}{14}$

Overall Probability = $\frac{1}{14} + \frac{1}{14} = \frac{1}{7}$

24. **A**

The given equation can be written as

$\log (10)^x + \log (1 + 2^x) = \log (5)^x + \log 6$

$\log (10)^x (1 + 2^x) = \log (5)^x \cdot 6$ (since logA + logB=logAB)

$\log \frac{(2^x \cdot 5^x)(1+2^x)}{5^x \cdot 6} = 0$ (since logA - logB=logA/B)

$\frac{\left(2^x + 2^{2x}\right)}{6} = 10^0$ $(Since \ \log_a N = x \ => N = a^x)$

$2^x + 2^{2x} = 6$

The above equation is satisfied only when x=1

25.D

For odd function f(x) = -f(-x)

for option A : f(x) = $2^{-x.x}$, f(-x) = $2^{-(-x).(-x)}$ = $2^{-x.x}$ = f(x). Hence Option A is not correct

for Option B : f(x) = $2^{x-x.x.x.x}$, f(-x) = $2^{(-x)-(-x).(-x).(-x).(-x)}$ = $2^{(-x)-x.x.x.x)}$ $\neq -f(-x)$

Neither A or B are correct

26.C

Total surface area of cube = $6 \times 8^2 = 384$

Amount of paint required = $\frac{384}{16} = 24 \, kgs$

Cost of 24kgs paint = $24 \times 36.5 = 876$

27.D

Total distance covered by horse = Circumference of the circle.

$2.5 \times 66 = 2\pi \times$ (radius)

$2.5 \times 66 = 2 \times \frac{22}{7} \times$ (radius)

radius $= 26.25$

28.D

Let the percentage of salt in the solution be x%. The amount of salt will be constant. Upon equating

$5\% \, of \, 6l = x\% \, of \, 5l$

It gives $x = 6$

29.B

While finding the last 2 digits, we can ignore the hundredth digit of each number and the last two digit will be the same as last two digit in case of $22 \times 23 \times 25 \times 27 \times 29$.

25*22= 550, which is an important result.

The rest numbers, 23, 27 and 29 when multiplied by 550, will result in the same last 2 digits as odd number multiplied by 5 will always give 5 as the last digit and we already have 0 at the end of it. So, odd number* 50= X50 always.

So, the last 2 digits will always be 50.

> ▶ VIDEO SOLUTION

30.D

Let the original fraction be $\frac{a}{b}$.

Given that Numerator, a is increased by 200% or it becomes 3 times. So, new numerator= 3a.

The denominator increases by 200%, and it also becomes 3 times. So, new denominator= 3b.

So, the new fraction= $\frac{3a}{3b}$, which is same as $\frac{a}{b}$, the old fraction.

The value of the fraction is given to be $2\frac{4}{5} = \frac{14}{5}$, which is also the old fraction.

Since, none of the first three options match. Option D is the correct choice.

> ▶ VIDEO SOLUTION

31. **A**

We always follow BODMAS

Now first taking numerator

which $\frac{1}{2} divided\ by\ \frac{1}{2}\ of\ \frac{1}{2}$

so we get $\frac{\frac{1}{2}}{\frac{1}{2}} \times \frac{1}{2} = \frac{1}{2}$

Now taking denominator we get $\frac{1}{2} + \frac{1}{2} \times \frac{1}{2} = \frac{3}{4}$

Taking ratio

we get : $\frac{\frac{1}{2}}{\frac{3}{4}} = \frac{2}{3}$

32. **C**

Let the total distance covered by the taxi be 100 kms.

For 60% of the distance, i.e. 60 Kms, Speed of the taxi was 40 kmph. Time taken to cover 60 kms= $\frac{Dis\tan ce}{Speed} = \frac{60}{40} = \frac{3}{2}\ hrs.$

For 20% of the distance, i.e. 20 Kms, Speed of the taxi was 30 kmph. Time taken to cover 20 kms= $\frac{Dis\tan ce}{Speed} = \frac{20}{30} = \frac{2}{3}\ hrs.$

For remaining, i.e. 20% of the distance, i.e. 20 Kms, Speed of the taxi was 10 kmph. Time taken to cover 20 kms= $\frac{Dis\tan ce}{Speed} = \frac{20}{10} = 2\ hrs.$

So, total distance= 100 kms.

Total time= $\frac{3}{2} + \frac{2}{3} + 2 = \frac{9+4+12}{6} = \frac{25}{6} hrs$

∴ Average speed= $\frac{Total\ Dis\tan ce}{Total\ Time} = \frac{100}{\frac{25}{6}} = \frac{100 \cdot 6}{25} = 4 \times 6 = 24\ kmph$

> ▶ VIDEO SOLUTION

33. **D**

Let the two numbers be 3x and 4x.

According to the question,

$(4x)^2 = 8\left(3x^2\right) - 504$

=> $16x^2 = 72x^2 - 504$

=> $56x^2 = 504$

=> $x^2 = 9$

Or, x=± 3

Since, x cannot be -3, it is 3.

Therefore the numbers are 3x and 4x, which is 9 and 12.

34. **B**

We will first look at the numbers that have 2 in the unit's digit.

So, the numbers between 1 to 100 having 2 in unit's place are 2, 12, 22, 32... 92. So, there are 10 such numbers.

For numbers having 2 at ten's place, we have numbers from 20 to 29. In total we have 10 such numbers.

But, 22 is common to both the groups, and hence,

Total numbers with between 1 and 100 with digit 2 on it is 10+10-1=19.

Total sample space= 100.

So, required probability= $\frac{19}{100}$

35. **D**

We have two parameters to look at in this question:

1) Length of the train. Let this be assumed to be a metres.

2) Length of the platform. Let us assume it as b metres.

It is given that speed of the train is 54 km/h Or, $54 \times \frac{5}{18}$ = 15 m/s

So, when it passes the man, distance covered will be the length of the train itself= a metres.

So, time taken= $\frac{Dis\tan ce}{Speed} = \frac{a}{15}$, which is given to be 20 seconds.

So, $\frac{a}{15} = 20$. And a= 300 metres.

Now, to pass the entire platform, we need to account for both the length of the platform and that of the train.

So, effective distance to be covered= a+b= 300+b metres.

Speed of the train = 15 m/s.

So, time taken= $\frac{300+b}{15}$, which is given to be 36 seconds.

So, $\frac{300+b}{15} = 36$

=> $300 + b = 36 \times 15$

=>b=540-300

So, b= Length of the train= 240 metres.

36. **D**

Total employees in Accounts department= 8% of 4600= 368

Ratio of Men: women= 1:3

So, total women in accounts department= $\frac{1}{4} \times 368 = 92$

37. **D**

The total number of employees :4600
Now total percentage of employees working in IT and HR : 26+11 =37 %
Total number of employees woking in the two sectors = 4600(0.37)
=1702

Thus, the correct option is D.

38. **C**

Number of Men in HR= $\frac{1}{2} \times 11\% \ of \ 4600 = \frac{1}{2} \times \frac{11}{100} \times 4600 = 253$

Number of Men in Accounts= $\frac{3}{4} \times 8\% \ of \ 4600 = \frac{1}{2} \times \frac{8}{100} \times 4600 = 276$

Number of Men in Production= $\frac{3}{5} \times 15\% \ of \ 4600 = \frac{1}{2} \times \frac{15}{100} \times 4600 = 414$

Number of Men in IT= $\frac{1}{4} \times 26\% \ of \ 4600 = \frac{1}{2} \times \frac{26}{100} \times 4600 = 299$

Number of Men in Marketing= $\frac{1}{2} \times 22\% \ of \ 4600 = \frac{1}{2} \times \frac{22}{100} \times 4600 = 506$

Number of Men in Merchandising= $\frac{5}{6} \times 18\% \ of \ 4600 = \frac{1}{2} \times \frac{18}{100} \times 4600 = 690$

Total men= 253+276+414+299+506+690=2438.

Total Women= 4600-2438=2162.

Ratio of men and women= $\frac{2438}{2162} = = \frac{53}{47}$

Hence, Option C

39. A

Total Employees =4600.

Total employees in Merchandising= 18% of 4600= 828.

Ratio of women and men= 1/5.

So, number of women= $\frac{1}{6} \times 828 = 138$

% of women= $\frac{138}{4600} \times 100 = 3\%$

40. B

Total employees given= 4600

Total employees in production = 15% of 4600= 690.

Ratio of men and women in Production= 3:2

Number of men= $\frac{3}{5} \times 690 = 3 \times 138 = 414$

Total employees in Marketing= 22% of 4600= 22$\times$ 46= 1012.

Ratio of men and women in Production= 1:1

Therefore number of men= $\frac{1}{2} \times 1012 = 506$

So, Number of men in Production: Number of men in Marketing= $\frac{414}{506} = \frac{9}{11}$

Reasoning

41. A

In the first pair of words, vowels are taken together and written down in the alphabetical order followed by the consonants in the same alphabetical order.

So, for BEGUM, the vowels are E and U. The consonants are B,G and M. When arranged alphabetically, it becomes EUBGM- option A.
42. C

The analogy could be understood as the first word of the given pair is an extreme form of the other.

So, running is an extreme form of walking. And hence, C is our answer.

43. C

From the statements
The possibilities are :

or

From the above two possibilities
we can say Either I or III and either II or IV follows

44. A

Let the no of shots be x. Then,

Shots fired by A =(5/8)x

Shots fired by B = (3/8)x

Killing shots by A = 1/3 of (5/8)x = (5/24)x

Shots missed by B = 1/2 of (3/8)x = (3/16)x

(3/16)x = 27 $\Rightarrow$

x =144

Birds killed by A = (5/24)x = (5/24)*144 = 30

45. B

The hour hand and the minute hands will be opposite to each other when the angle between them= $180°$.

At 9PM, angle between the two hands= $270°$

The minute hand covers $360°$ in 60 minutes. So, in 1 minute, it covers $\frac{360°}{60}$= $6°$

Similarly for the hour hand, it covers $360°$ in 12 hours or 720 minutes.

$\therefore$ The hour hand covers $\frac{360°}{720}$ = $0.5°$.

Using the concept of relative speed, since both the hands move in the same directions, the effective speed= (6-0.5)$°$ =5.5 or $\frac{11}{2}$ degrees per minute.

Effective distance to cover= $270° - 180° = 90°$

Therefore time taken= $\frac{90}{\frac{11}{2}} = \frac{180}{11} = 16\frac{4}{11}$ minutes after 9 PM.

Option B is our answer.

**46. B**

P $\times$ Q means P is the son of Q.

Q-S Means Q is the wife of S.

So, Q and S are a couple, where S is the husband and Q is the wife. Also, P is their son.
So, S is the father of P.

47. A

With the given information, we can draw the following venn diagram:

For minimum students to appear for the exam, we can maximise the part common to VA and DI.
We will get the following final venn diagram:

So, total students appearing= 80+10+5+10= 105

48. **C**

With the given information, we can draw the following Venn diagram:

Let the number of students who cleared the cut-off in exactly one, two and three subjects be a, b and c, respectively, and the number of students who cleared the cut-off in both VA and DI be y.

Thus, c = 40

a + 2b + 3c = 80 + 70 + 60 = 210

a + 2(5 + 10 + y) + 3(40) = 210

a + 2y = 210 - 120 - 30

a + 2y = 60

We have to find the minimum value of a.

'a' is at least 5 as the students in only QA = 5.

At a = 5, y = $\frac{55}{2}$. Since y needs to be an integer, a cannot be 5.

At a = 10, y = 25. But in this case, the total number of students in VA = 75. Thus, a cannot be 10.

At a = 20, y = 20. This case satisfies all the conditions.

Hence, the minimum number of students who did not clear cut off in exactly two subjects = Minimum number of students who cleared only one subject = 20.

The answer is option C.

49. **A**

Since 40 students cleared cut off in all the three subjects, while 50 students cleared cut off in VA and QA hence the number of students who cleared cut off in only VA and QA is 50-40 =10

5 students cleared cut off in only QA hence the number of students who cleared cut off in only DI and QA is 60-40-10-5=5

Let the number of students who cleared cut off in only DI and VA is x.

From the given condition, the ratio is 15/5 = 3:1

50. **B**

Since 40 students cleared cut off in all the three subjects, while 50 students cleared cut off in VA and QA hence the number of students who cleared cut off in only VA and QA is 50-40 =10

5 students cleared cut off in only QA hence the number of students who cleared cut off in only DI and QA is 60-40-10-5=5

Let the number of students who cleared cut off in only DI and VA is x.

number of students who didn't clear cut off in at least two subjects = (35-x)+(20-x) + 5 + 10 = 70-2x

This is max when x=0

=> number of students who failed in exactly one subject = 10+5+x = 15

51. **B**

X lives in a hotel

Palace cannot be allotted to T since T likes black

Palace cannot be allotted to U since U likes blue

Palace cannot be allotted to P since P likes blue
Hence M stays in palace

52. **D**

According to Sangeeta, the dates can be 9,10,11,12

According to Natasha, the dates can be 10,11,12,13

Hence we cannot accurately say the date of his birthday.

53. **A**

The final position would be 35 metres east

54. **D**

The **statement** says that the **best way to escape from a problem is to solve** it. From this **we** cannot conclude that **life** is **dull if you don't face problems**. Neither **can we** conclude that to **escape** or avoid **problems you should have some solutions with you**.

Kuntala and Arun are not born in succession.

59. **A**

B and C can be rules because nothing has been mentioned about how challenging each sport is.

D is also ruled out. It is possible that only some (not ALL) students who find backgammon challenging play checkers.

60. **C**

The statement mentions that India had to pay the price of increased pollution level to earn its economic growth. So, both I and III are implicit. However, this does not imply that only industrial growth has brought about India's economic growth. So, II is not implicit.

61. **D**

The female members in the family are mother,wives of 3 married sons unmarried daughter and 2 daughters of each of the two sons.
Number of female members=(1+3+1+2x2)=9

62. **C**

Options (a) and (b) do not make any sense if they are put in the blanks of the series sequence: DEFFDEEFDDEFEDEDF using the option (a) shows no consistent pattern.

Similarly, the sequence DEFFDEEFDDEFDDEFF got by using the option (b) also shows no consistent pattern and hence can be rejected.

The sequence formed using option (c) is:

DEFFDEEFDDEFFDEEF. This sequence makes sense if you were to break the sequence into 3 terms at a time.
You will get the sequence as:
DEF - FDE - EFD - DEF - F-E - EF

In the above sequence, it can be seen that there is always a sequential order in which the three letters appear and also the second group of 3 alphabets starts from the last letter of the first group of 3 alphabets. And this trend continues uninterrupted throughout the sequence. Hence, we can mark option (c) as the correct answer

63. **C**
2/3th of 60+3/4th of 60+ 4/5th of 60

Thus, the number of alterations required = 20+45+48 =133

64. **C**
A special warning has been printed to caution people against adverse effects of smoking. So, II is implicit while I is not. Also, the fact that smoking is injurious to health does not imply that non-smoking promotes health. So, III is not implicit.

69. C

A's position from front 18

C's position from front = 25

B's position from front = 32
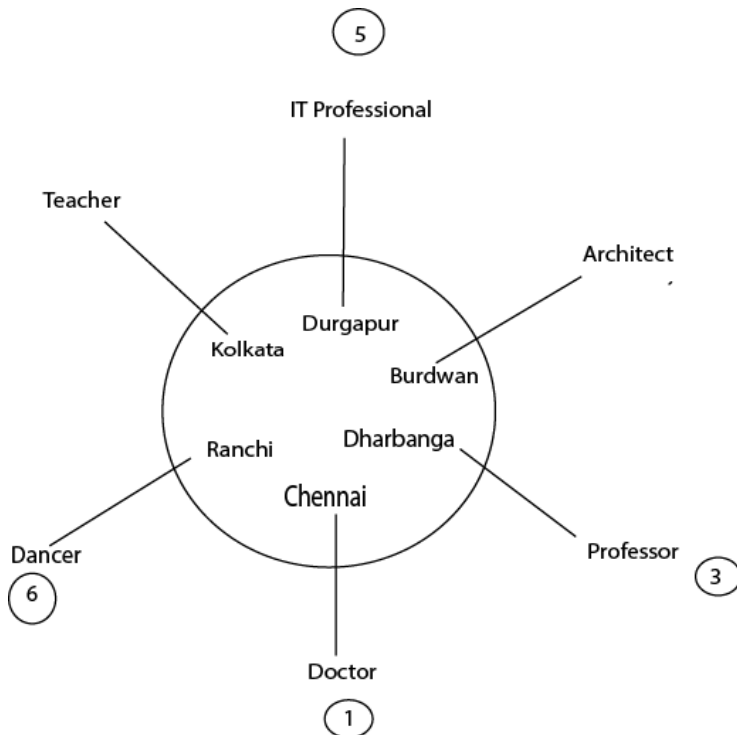

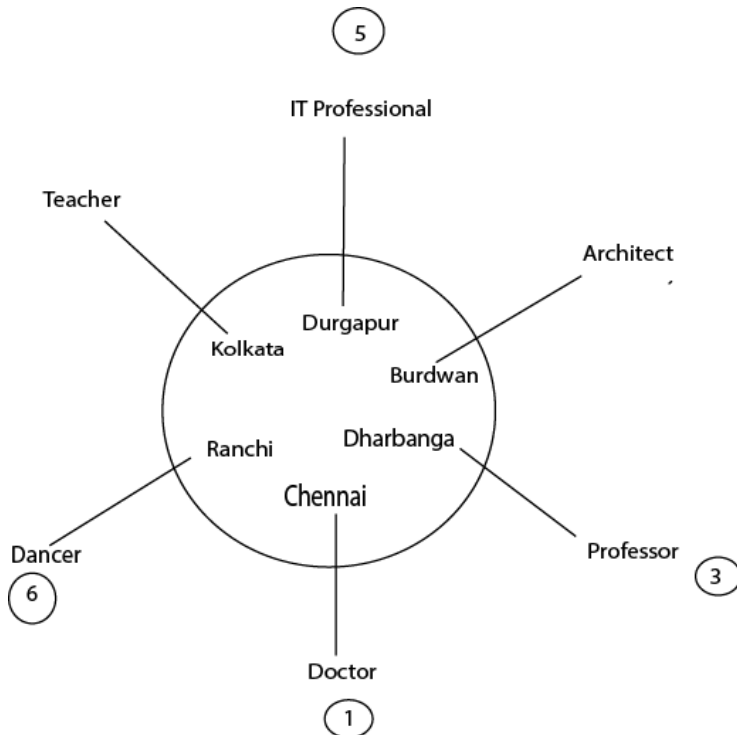

B's position from back = 16

Total number of people = 32+16-1 = 47

70. A

The author is of the opinion that efficiency is not limited only to work. but to all the things, and thus it is all-pervading

General English

71. D

"Native" means "indigenous to a certain place".

Thus, the opposite of it will be "foreign".

Hence, the answer is option D.

72. B

"Attenuate" means to "reduce in force or effect".

Among the options, "Expand" Means increasing **size, strength, or intensity**, which is the **correct antonym** of attenuate.

It is the only one with an opposite meaning.

Hence, the answer is option B.

73. D

"Cajole" means to *"persuade (someone) to do something by sustained coaxing or flattery."*

To "Bully" would be the opposite of Cajole.

Hence, the answer is option D.

74. **D**

"Consanguinity" means "being descended from the same ancestor."

Among the options, "Kin" is the only one synonymous with it.

Hence, the answer is option D.

75. **A**

"Demurrage" is the correct spelling. It refers to "a charge payable to the owner of a chartered ship on failure to load or discharge the ship within the time agreed."

Hence, the answer is option A.

76. **D**

Options A, B and C are spelt correctly.

The correct spelling of option D is "pernicious".

Hence, the answer is option D.

77. **A**

The correct phrase to replace **"long or short of it"** is **"The long and short of it."**

So the revised sentence would be:

The long and short of it is that I do not want to deal with that new firm.

The answer is **"The long and short of it."**

78. **D**

The given sentence is grammatically correct.

Hence, the answer is option D.

79. **B**

The correct grammatical use would be You would "*doubtlessly be somewhat*" surprised to get this letter.

Hence, the answer is option B.

80. **B**

Options A and C are not general idiomatic expressions and would not fit.

Both "slipped through your fingers" and "escaped your hands" are grammatically correct and idiomatic expressions that convey the idea of missing an opportunity.

However, "slipped through your fingers" is the more commonly used and natural phrase in English to describe letting something valuable get away.

Therefore, Option B is the correct answer.

81. **B**

The correct phrase is "Stand a chance".

Hence the answer is option B.

82. **C**

A "sleeping partner" (also called a "silent partner" in some regions) is someone who invests money in a business but does not take an active role in its management or operations. This fits the context of being busy with other projects.

Therefore, Option C is the correct answer.

83. **A**
Steer clear of' fits best in the given context.

Option B: The correct option would have been 'stay away from'

Option C: This does not fit the given context and can be eliminated.

Option D: This is a worse version of option A, with "of" missing.

Therefore, Option A is the correct answer.

84. **A**
The correct idiom is "to spin a tale". It means "**to make up a story**".

Hence, the answer is option A.

85. **C**
"neglecting" means "to not pay attention".

"negligent" means "someone who is careless".

"negligible" means "very very small"

"neglected" means "not paid attention to".

The only word that can be used with "amount" is "negligible".

Hence, the answer is option C.

86. **C**
"force" means to "make someone do something"

"denigrate" means to "criticize".

"delude" means to "believe something that's not true"

"fool" means "unwise".

Among the options, "delude" is the best choice to fill the blank.

Hence, the answer is option C.

87. **C**
The context of the sentence indicates that the required word should mean "to escape".

Since the sentence is in the past tense, the appropriate choice is " fled".

Hence, the answer is option C.

88. **D**
Among the options, the most suitable choice is "superior". The line means to say that the essays are intellectually higher in quality and complex in nature.

Revealing [to show something], Modern [new], demanding [requiring more energy] do not fit well with the sentence.

Hence, the answer is option D.

89. **C**
We need a word that will compliment "corrupt" and "feudal".

Among the options, the best choice is "despotic" [tyrannical]

Hence, the answer is option C.

90. **C**

From the context of the sentence, it means that a teacher must recognize a student's unique learning style in order to lead it in the desired direction.

"perpetuate" means to "continue" and "absorb" means to "take in". Both these do not fit with the sentence. Thus, options B and D are rejected.

Among A and C, "appreciate" is a better choice for the sentence as it goes well with the tone. "Advocate" means to support and encourage, whereas "appreciate" means to recognise. Thus, it is a better choice.

Hence, the answer is option C.

91. **C**

The second blank is about the title of Rai Bahadur. Thus, the best choice for it is "honoured".

"assigned" would have worked if there was no "with" after the blank.

Hence, the answer is option C.

92. **D**

"managing" and "reaching" are the only suitable choices for the first blank.

Among "purposefully" and "continuously", the latter fits the tone of the sentence better.

Hence, the answer is option D.

93. **B**

From the first and second paragraphs, we can observe that a significant factor in the creation of the WTO was that a lot of countries got what they needed in the form of this organisation. The second paragraph mentions the motives of different countries behind the formation of WTO.

Thus, among the options B is the most suitable reason.

94. **B**

From paragraphs 2 and 3, we can observe that one of the main reasons a lot of countries agreed to the formation of the WTO was the rules-based system as it would ensure that countries like the USA cannot take unilateral decisions, and will also protect other countries. The implementation of a rules-based system was also one of the main reasons with which Ambassador Kantor defended the WTO.

Hence, the answer is option B.

95. **A**

The third paragraph states "*As it played out in the WTO, consistency meant integrating under one roof the whole lot of separate agreements signed under GATT auspices*"

Hence, the answer is option A.

96. **D**

The fifth paragraph states *" One means the Court used to expand integration was the 'teleological method of interpretation' whereby the actions of member states were evaluated against 'the accomplishment of the most elementary community goals set forth in the Preamble to the [Rome] treaty."*

Hence, the answer is option D.

97.C

"Finally, and perhaps most important, many countries at the Uruguay Round came to put a higher priority on the export gains than on the import losses that the negotiation would produce, and they came to associate the WTO and a rules-based system with those gains. This reasoning replicated in many countries - was contained in U.S. Ambassador Kantor's defense of the WTO, and it amounted to a recognition that international trade and its benefits cannot be enjoyed unless trading nations accept the discipline of a negotiated rules-based environment."

Hence, the answer is option C.

98.D

*"Over the past two decades, the European Court of Justice (ECJ) has consistently rendered decisions that have expanded incrementally the EU's internal market, in which the doctrine of 'mutual recognition' handed down in the case Cassis de Dijon **was a key turning point.**"*

Thus, the best choice for the answer is option D.

99.B

The passage is about how the conventional way of academic visibility has changed due to technology in the form of TED talks, radio, blogs and conventions.

Option A only mentions TED which is only a part of the bigger discussion.

Option B is the main idea and will be the answer.

Option C talks about gaining popularity and adulation. This is not the main point of discussion.

Option D talks about presentations which are not mentioned in the passage.

Option E talks about worldwide metamorphosis whereas the passage only talks about the changes in the academic field.

Hence, the answer is option B.

100.A

The term is mentioned with older ways which are no longer used.

Thus, it describes the end of an era for the older ways.

Hence, the answer is option A.

101.D

Nowhere in the passage does the author mention that TED is irreplaceable. The author also provides some examples of conventions and conclaves that are paving the way for academic visibility. Therefore,the answer is option D.

Option A: This can be inferred because the passage discusses how TED has gained significant influence in the academic and intellectual space, helping to shape the way ideas are conveyed.

Option B: The passage implies that traditional academic forms (like Theory in English departments) are being overshadowed by newer platforms, such as TED, which focus on different ways of presenting ideas.

Option C: This is a suggestion made by John Holbo, who notes that Morris Zapp would be giving a TED talk, implying that contemporary intellectuals, including philosophers, may be shifting to different formats (such as TED talks) to engage with their audience.

102.D

S1 talks about the chairman of the committee. Thus, the next sentence will be Q which talks about the responsibility of the chairman.

S will follow Q as it extends the discussion.

Only option D has QS as their opening statements.

Hence, the answer is option D.

103. **D**

Q will follow S1 as it explains why the entire land was covered with water.

P will follow Q as it extends the idea mentioned in Q.

RS will follow QP as they mention what the two halves of the body mentioned in P were used for.

Thus, the sequence is QPRS.

The answer is option D.

104. **B**

S will follow S1 as it mentions how Gandhi came [mentioned in S1]

R will follow S as "their" mentioned in R refers to the "masses" mentioned in S.

Q will follow R as it continues the discussion about Gandhi.

P will be the final statement as it talks about Gandhi's message.

Thus, the required sequence is SRQP.

The answer is option B.

105. **A**

The given relation describes a type of phobia and the entity to which the phobia is related.

In option A, "claustrophobia" means the "fear of enclosed places" and not "foreigners". Thus, it is a wrong relationship.

Hence, the answer is option A.

106. **A**

The pair **"propeller : dog"** is least similar because a propeller is a part of a vehicle, while a dog is not related to being part of something like that. The other pairs involve things that are parts of a whole, like a sail is part of a ship.

107. **B**

A feline : Cat: FELINE is the adjective form related to the noun CAT. This is the same relationship.

B. aquatic : parrot: AQUATIC is an adjective related to water, while a parrot is a bird. There is no direct relationship of the same type.

C. serpentine : cobra: SERPENTINE is an adjective related to serpents or snakes, and a cobra is a type of snake. This is the same relationship.

D. vulpine : fox: VULPINE is an adjective related to the noun FOX. This is the same relationship.
Hence, the answer is option B.

108. **A**

In sentence A, "imigrant" is an incorrect spelling of the word "immigrant".

Sentence B is grammatically correct.

In sentence C, there should be a comma (,) after "brother-in-law".

Sentence D should have started with "the".

Sentence E should have had "be" instead of "became".

Hence, the answer is option A.

109. **D**

Sentence A is grammatically correct.

In sentence B, the pronoun used for NIKE should be "its" and not "their".

In sentence C, "Perhaps sensing the rising tide" should be "Perhaps sensing *that* the rising tide".

Sentence D is grammatically correct.

In sentence E, the article used with "industry" should be "an".

Hence, the answer is option D.

110. **B**

In sentence A, "countercharges" should have been "counter-charges".

In sentence B, "million" should be "millions"

Sentence C is grammatically correct.

In sentence D, it should have been " reach *the* hundreds"

Sentence E should have been " The death count *has* just begun".

Hence, the answer is option B.
